Task 4: Effective Written Communication & Digital Etiquette.

1. Introduction

Effective written communication is key to professional success. Task 4 focused on clear, concise, structured emails and defining 'Netiquette' standards, creating artifacts relevant to an academic and early professional journey.

3. Reflection

Crafting professional emails requires balancing clarity, formality, and respectful intent. Module 4 emphasized details like subject lines and tone. The challenge was being concise and editing ruthlessly. Netiquette is about respect and digital citizenship, crucial for my professional image.
